

The Mary Parsons Collection: The Hardy-Plaisted-Hicks-Parsons Family History, (1453-2020)

Abstract: The collection contains 20 boxes (9 c.f.) of paper materials and ephemera, a photograph collection, correspondence files, and a handwritten index file including 264 surnames noting primary resource and secondary resource information recorded throughout research. The records contain the families of Hardy (1564-1978), Plaisted (1540-2008), Hicks (1453-2019), and Parsons (1708-2018).

Access Restrictions: There are no access restrictions on the materials due to confidentiality.

History of Records: Mary Parsons, a resident of Wayland, NY, for many years, became interested in family history while in junior high school in the late 1940s. It was not until the release of the television miniseries "Roots" in the 1970s that Mary actively pursued the study of her family tree. Finding enjoyment in the research process and the thrill of the records hunt, Mary kept herself engaged with family research for about 40 years only ceasing due to declining health. This collection is the compilation of her research into the many branches of her family tree. Mary Parsons stated that her goal was to trace all lines of the family "back to the ocean".

Scope and Content: The Mary Parsons Collection covers the years of 1453-2020 with the bulk of her research performed in New York State. The family records generally include pedigree charts, descendency charts, and family group sheets compiled by Mary Parsons. Support materials include copies of obituaries, copies of vital records, copies of census records, cemetery records, copies of service records, relevant photocopies from published histories, copies of news clippings, other family histories that are surname relevant, and surname correspondence. The compiler was excellent at citing her sources.

Highlights of the collection include the following ephemera in the family records:

- Hardy, Mary Lucinda, includes a War Ration Book

- Hicks, Alfred Elijah, Hornell map from 1957 with political ads

- Kellogg, Bertha, contains a winter pastel drawing

- Hicks, Mary Margaret, Homemaking III Family Tree is her original family tree assignment

- Jenckes, Joseph I, contains printed booklets:

- "Colonial Toolmaker and Inventor" by Stephen P. Carlson

- "Founders and Patriots" by Judith Jencks Ray

- Saugus Ironworks brochure

- Keith History includes more correspondence from Gerald Keith to Mary Parsons

- Keith, James, contains an unpublished work "James Keith of Bridgewater, Mass.", by Ellen Keith Parks

- Plaisted, Cecil Roscoe, contains a sewing kit advertisement from a clothing store

- Plaisted, Cecil Roscoe, has a Farmers Day Book from 1926-27

Plaisted, Julia, contains Eastern Star membership card
Plaisted, Leon Albert, includes a paperback edition of the play "Tatters: The Pet of Squatters' Gulch"
Plaisted, Mabel, includes 1930 Divorce Judgement
Van Cise Connection includes correspondence
Many portrait postcards found throughout the photograph collection

Arrangement:

A Surname Index List has been compiled and included with this finding aid. The Surname Index List helps the researcher to identify the index file box that contains the surname. The index cards are arranged alphabetically by surname.

The family records are arranged in subseries by the main surnames of Hardy, Plaisted, Hicks, and Parsons. Within each subseries, the records are arranged by alphabetically by folder title. The Family Records end with a box of correspondence and miscellaneous files.

Photographs are arranged in subseries by the main surnames of Hardy (HA), Plaisted (PL), Hicks (HI), and Parsons (PA). Within each subseries, the records are then arranged by the surnames contained within each folder. Photographs are given a unique identifier that is found on the back of the picture and in the top right corner of each individual sleeve.
