

## **We are both local and nationwide (USA) mail order!**

### **Digitize your visual memories!**

Don't send your images off to high-priced digitization companies! Let **Archive Your Past** help you preserve your memories with high quality scans. We can scan regular photo prints, fragile or delicate prints, oversized or very small photos, documents, newspapers articles and more!

Scanning quality can vary greatly depending on the condition and film processing method of the photo. We work with an Epson V850 flat-bed scanner to provide you with the best image that we can craft.

Together, we will talk about grouping and labeling your images so the project meets your needs. We can group your images by years, events, family branches, topics or any other idea you have.

See the Individual Pricing Guide.

### **Digitization Treatment**

#### **All photographs are:**

- Treated with compressed air or electrostatic brush for dust removal
- Rotated to correct orientation
- Full frame cropped
- Color and exposure corrected
- Handled with archival quality gloves during process

#### **All slides and negatives are:**

- Treated with compressed air or electrostatic brush for dust removal
- Color and exposure corrected
- Rotated to proper orientation
- Handled with archival quality gloves during process

### **How do you want to view your digitized images?**

We can save them to a DVD for \$15 per disc

We can save them to an 8 GB flash drive (up to 1000 images) for \$20

We can save them to your cloud (you provide account information) for \$10

### **Digitize your VHS tapes!**

Won't it be great to see the video from years ago? We can convert a VHS/VCR tape to a digital format for you. We charge \$30 for the first 60 minutes of the tape and \$15 for each subsequent 60 minutes. Since some VHS tapes stretch over time, we will do our very best to capture the entire image on the tape.

(Only standard VHS tapes at this time. No copyright or pornographic material.)

**How do you want to view your digitized video?**

We can save them to a DVD for \$15 per disc

We can save them to an 8 GB flash drive for \$20

We can save them to your cloud (you provide account information) for \$10

**Now, what should you do with the physical photographs, negatives, and slides???****Preserve Them!**

To preserve your visual memories in storage materials that are acid-free, lignin-free, and pH neutral, consider our organizational options\*:

Photograph storage boxes

Slide storage cases (holds 2000 slides)

Slide storage boxes (holds 600 slides)

Storage Albums for 50 page protectors (stores photos, documents, slides, and negatives)

Storage Albums for 150 page protectors (stores photos, documents, slides, and negatives)

Negative storage cases (need to research both companies)

\*Pricing for these options depend on your collection needs.

Email [info@archiveyourpast.com](mailto:info@archiveyourpast.com) and tell us what you would like to have preserved and we can decide the best route for keeping your photographs and albums and slides safe from dust, light, and bugs!

For up to 12 slides there is a \$33.00 set up charge  
For up to 24 slides there is a \$28.00 set up charge  
For 25+ slides there is a the per item charge only.
